

No. BAN/EDU/327/6/2022

7th March 2022

Dear Sir/Madam,

The Embassy is pleased to inform that the Department of Science & Technology of the Government of India has announced the India Science and Research Fellowship (ISRF) programme for scientists from neighbouring countries like Afghanistan, Bangladesh, Bhutan, Maldives, Myanmar, Nepal, Sri Lanka and Thailand to work in advanced research areas in all major disciplines of science and technology including engineering and medical sciences at premier research laboratories in India.

The ISRF Programme was started in 2014 with support from Department of Science & Technology. Each year, 8-10 fellowships are awarded to each partnering country. The Fellowship covers return airfare, sustenance allowance (including accommodation), and contingency grant to the fellow and contingency grant for host scientist (through institution) for providing laboratory facilities and infrastructure. The call for proposals under ISRF is now open and the deadline for receiving applications is 15th April 2022.

The detailed brochure of this programme and application form are enclosed. You are requested to distribute the information among students and members of your university/research institution.

With regards,

Yours faithfully,

(Vipul Pawar)
Attache(SEC)

To President of University & Director of Research Institution in Thailand
